any grade and
subject matter**

ABOUT US

As part of the University of Cincinnati, we help students and educators practice the habits of ethical reasoning: listening closely, thinking carefully, and disagreeing well.

DIALOGUE & ETHICAL DILEMMAS WORKSHOP

In this classroom workshop, we engage students in ethical dilemmas that build critical thinking and respectful dialogue, connecting to your school's own principles and mission. Available as a one-hour introduction or a deeper 4–8 session series.

ETHICS CLUB

An after-school club where students learn to think critically and talk to each other across disagreement. Can be structured as a debate-style discussion (using Ethics Bowl format) or as an immersive simulation (*You're stranded on an island. How do you work together?*).

LEADERSHIP DEVELOPMENT

Designed for student councils and leadership groups, we help students navigate real ethical challenges using their own values as a guide.

TEACHER PROFESSIONAL DEVELOPMENT

Practical strategies for fostering moral reasoning and productive dialogue in your classroom, even when students disagree.

EVENT TABLING

Perfect for Back-to-School Nights and Activity Fairs! We bring our interactive wheel of ethical questions and goodies for participation.
